To Andrew Ramdayal,

I am writing this letter to show my appreciation for all the help that you provided to myself and the company. With your knowledgeable guidance within the Quickbooks program, we now have a better understanding on how the company is doing. The Quickbooks program can be extremely valuable when it comes to keeping track on how our company is performing. Unfortunately, this can only be accomplished accurately if figures are recorded correctly and placed in their respective locations. We learned this the hard way.

From the start we were not performing the procedures according to Quickbooks protocol. When we went to look at certain reports, items were coming up inaccurate. We realized that it was time to get a better understanding of Quickbooks to help us better evaluate the companies' standings. The Quickbooks tutorial that your company provided helped us better understand the Quickbooks functions and all the benefits it can have to a business. We are now keeping more accurate records and saving more time by allowing Quickbooks to utilize all its functions. We now have more accurate reports and more time to concentrate on business at hand. Thanks for all your help.

Yours Truly,

Marc Castellano
